

line launcher

The Kiwi Rescue Line Launcher is designed for ease of operation in the most extreme weather conditions and environments. It utilises safe, widely available 16g CO2 cylinders to propel a pod connected to an 80m line accurately, safely, reliably and repeatedly.

Uses are extensive where making a line connection between two parties is required.

- Ship to Ship tow/transfer • Ship to Shore • Shore to Ship • Person in Distress (MOB) • Surf Lifesaving •
- Construction Line Transfer • Mountain/Alpine Rescue •

TECHNICAL SPECIFICATION

Length:	805mm
